

program would not deserve to be called a Communist Party.

(2) There can be no doubt that the fact of involving the colored troops in the imperialistic war and at the present time in the occupation of German territory represents a carefully worked out and executed attempt of European, and in the first place of French and British capital, to find for themselves a force outside of chaotic Europe and by so doing to obtain the possibility of finding support, in case of necessity, in the mobilized, disciplined and armed African and Asiatic troops against the revolutionary masses of Europe. That is why the question of involving colored troops in imperialistic wars is closely connected with the question of revolution in Europe and, therefore, with the fate of the working class.

(3) There can be no doubt that the fact of involving the less civilized colonial masses in international imperialistic conflicts represents an experiment most dangerous for the ruling bourgeoisie itself. The black people, as well as the colonial natives generally, preserve conservatism and "mental immobility" only if they remain in their usual domestic surroundings. But when the hand of capital and even more - the hand of militarism - pulls them out of their usual living conditions and compels them to sacrifice their lives for the sake of complicated and now international questions and conflicts (conflicts between the bourgeoisie of various nations, or conflicts between the classes of the same nations,) then the conservative psychological stubbornness is immediately wiped

out and the revolutionary ideas are grasped by the disturbed minds.

(4) That is why it is so important now, at the present moment, to have even a small number of class-conscious negroes, young and devoted, interested in the improvement of the economic and moral level of the black race and at the same time capable of connecting morally its fate with the fate of the whole world and, in the first place, with the fate of the international working class.

The Training of the Black Agitators is the Most Important Revolutionary Problem of the Moment.

(5) This problem becomes more complicated in the United States of America on account of the abominable stupidity and race hatred among the privileged circles of the working class itself, which do not want to recognize negroes as brethren in labor and struggle. Comporn's policy is based entirely on this prejudice and up to the present time is the best guarantee for the enslavement of the white and black workmen. Boldly struggle against this policy must be carried on everywhere. One of the most important methods of struggle against this capitalistic corruption of minds is to wake up the human dignity and revolutionary protest among the black slaves of American capital. This work can be best carried on by the devoted and politically educated negro revolutionists. Naturally the work must not assume the character of "black chauvinism" but must be carried on in the spirit of solidarity among all laborers regardless of the color of their skin. I am at a loss to say what are the most expedient organization forms for the movement

-4-
Among the American negroes because I am not familiar
with the concrete conditions and possibilities. But
the organization forms will be found as soon as suf-
ficient will for action is displayed.

With communistic greetings,

(Signed) L. Trotsky.

Dear Mr. Burns:

Under date of March 8, the Department received a cablegram from the American Legation at Copenhagen to the effect that CLAUDE MACKEY was reported to be leaving for the United States with instructions to organize a colored Soviet. The Department immediately requested the Legation to forward more definite information as to the vessel and date of departure.

Under date of March 15, the Legation replied in effect that they were unable to ascertain facts concerning Mackey's departure but learned that a Bolshevik agent of this name was recently ordered to proceed to The Hague from Norway. It is the opinion of our people abroad that if this agent is Claude Mackey, he will probably attempt to enter the United States via the West Indies.

The two principal negro delegates were J. Billings, chief of the delegation, and Claude Mackay, his assistant. I do not know their ages, but I am enclosing herewith reproductions of two photographs, one taken from the New York Times of December 31, 1922, showing Claude Mackay and Max Eastman, and the other from the February number of Current History, in which both Mackay and Billings appear. An American who recently arrived here from Moscow saw Mackay there and describes him as being a typical black American negro. It is stated that he is a poet and writer. From the photograph of Billings, it would appear that he is of the mulatto type. I have been unable to obtain the full names of the other two negro delegates, Johnston and Sayesh (or Sascha), nor can I give you a description of them.

It is very doubtful if any of the delegates had American passports. Numerous American citizens have recently proceeded to Soviet Russia without passports, having only certificates issued by Bolshevik agencies in the United States, such as the "Society for Technical Aid to Soviet Russia" and "Kuzbas".

TITLE AND CHARACTER OF CASE
CLAUDE MACKAY : COPENHAGEN, DENMARK : RADICAL; NEGRO REPRESENTATIVE
(Claude McKay??) : : AT 3rd INTERNATIONALE,
: AT MOSCOW, RUSSIA.

FACTS DEVELOPED: Houston File No.

AT GALVESTON, TEXAS.

On March 18th, 1923, Agent received letter of instruction from Agent in Charge T. B. White, Houston, Texas, to effect that the surveillance and examination of above named Subject was desirable should he attempt to enter the port of Galveston, Agent in Charge White being at that time in receipt of following from the Director:

"I am in receipt of information to the effect that Claude McKay, Communist negro delegate from America to the Third Internationale, is about to leave Copenhagen on his return to the United States.

It is possible that this subject may carry instructions and documents from the Communist Internationale to the Communist in this country, together with a considerable sum of money, and it is therefore desired that should he endeavor to enter the United States through the territory covered by your office, that he be given a very careful examination, and the Bureau promptly advised."

Upon receipt of such instructions Agent at once conferred with official heads of U.S. Immigration Service, U.S. Customs Service, U.S. Public Health Service and the Sheriff's and Police Departments at Galveston, with result that all of such officials gladly offered their cooperation toward the purpose above stated.

On March 31st, 1923,
Agent again received instructions
from Agent in Charge T. B. White,
Houston, Texas, to the effect that
further specific endeavor be made for

61-3497

location of Subject should he endeavor to enter United States thru the port of Galveston, Agent in Charge White further advising that he was just then in receipt of supplemental information from the Director, as follows:

"Reference is made to previous correspondence concerning one Claude Mackey, a negro representative from America at the 3rd International at Moscow, who is reported to be returning to the United States. Information has just been received through the State Department from the American Legation at Copenhagen to the effect that Claude Mackey was reported to be leaving for the United States with instructions to organize a colored Soviet.

Appropriate action should be taken with a view to giving this Subject a very thorough examination should he attempt to enter the United States through the District covered by your office."

Upon receipt of the second set of instructions, as above, Agent at once took up by telephone with all Federal officers at Galveston requesting their cooperation and, likewise, with all local officers who could be reached. Agent has now under way the preparation of 25 copies of such informations regarding subject, that is to say, the material excerpts from same, which copies will be distributed with all Federal and other officers here having to do with waterfront and Marine activities. However, since Agent first received information from Houston office relative to Subject, there has not been any indication that Subject has attempted to enter the United States through either Texas City or Galveston, Texas.

With reference to your letter of April 9, initialed JEH/IKR, relative to Claude McKay, I wish to advise you that information which has just been received is to the effect that McKay is about to leave for America.

Trotsky apparently has gone so far as to advise him by means of an open letter in the "IZVESTIA" (photostat copy of which is enclosed) of the best ways of rousing the negroes against the white races, whether these are American, British or French.

It is reported that he has finished his studies in the Bolshevik propaganda academy in Russia, and has been charged by the Executive Committee of the Third International with the duty of organizing Communist propaganda among the North American negroes.

The source of the foregoing information has requested that it be kept secret and discreetly used.

DEPARTMENT OF STATE
WASHINGTON

May 12, 1923.

Dear Mr. Burns:

Please refer to your letter of February 10, 1923, initialed TFB:GA regarding an inquiry of the Translation Section of your Department concerning the identity of the delegate to the Fourth Congress of the International, Sasha or Sayesh.

I have recently been advised by the Legation at Riga that a great amount of confusion has been caused by various ways of spelling the name of this delegate, due to the variations which can occur in transcribing the name from Russian to English script. It has been rendered Sasha, Sayesh, and Sascha. From all the information gathered, it appears that all these renderings refer to the same person, who is listed as an American delegate.

The fact that he spoke about the necessity for propaganda among the American negroes, would make it seem most likely that he spoke as an American.

Very truly yours,

William J. Burns, Esquire,
Director, Bureau of Investigation,
Department of Justice.

DEPARTMENT OF STATE
WASHINGTON

June 1, 1923.

Dear Mr. Burns:

With reference to previous correspondence relative to Claude Mackey, the well known negro agitator, I enclose herewith copy of Despatch No. 411, dated April 25, 1923, which has been received from the American Legation at Copenhagen.

Further information which has just been received from London is to the effect that Mackey, having passed through the Propaganda and Agitation School in Moscow will shortly leave for America carrying on propaganda among the coloured element.

I am in possession of photographs of this individual which will be transmitted to you as soon as I am able to have copies made.

Very truly yours,

Enclosure:

AFRICAN BLOOD BROTHERHOOD

The African Blood Brotherhood has not been active during the week as a scheduled meeting had to be called off because of the illness of Grace Campbell, one of the prime movers in the organization.

Cyril Briggs is still busy in an endeavor to put into operation his co-operative store scheme, but appears to lack sufficient money to start it. Briggs is still getting out the "Crusader Service" and the issue marked for release on September 24th states that Claude McKay, the negro poet and radical, is at present in Germany for the Crusader Service and that he will write his impressions and lecture on his return to this country.

In the issue above referred to, Briggs quotes a letter purporting to have been written by Leon Trotsky to McKay on the negro question. The letter in part reads as follows:

JOSEPH C. TUCKER

SPECIAL REPORT

SEPT. 29, 1935.

"The colored workers themselves must offer resistance against being so employed. Their eyes must be opened so that they realize when they help French imperialism to subjugate Europe they are helping to subjugate themselves, in that they are supporting the domination of French in the African and other colonies. *****"

"In North America the matter is further complicated by the abominable obtuseness and caste resumption of the privileged upper strata of the working class itself, who refuse to recognize their fellow workers and fighting comrades in the negroes. Compers' policy is founded on the exploitation of such despicable prejudices and is at the present time the most effective guarantee for the successful subjugation of white and colored workers alike. The fight against this policy must be taken up from different sides, and conducted on various lines. One of the most important branches of this conflict consists in enlightening the proletarian consciousness by awakening the feeling of human dignity, and of revolutionary protest, amongst the black slaves of American capital. As stated above, this work can only be carried out by self-sacrificing and politically educated revolutionary negroes.

"What forms of organization are most suitable for the movement among the American negroes, it is difficult for me to say, as I am insufficiently informed regarding the concrete conditions and possibilities. But the forms of organization will be found, as soon as there is sufficient will to action.

"With communist greetings,

L. TROTSKY."

Agent today visited various places in Harlem, but did not learn anything of value.

I later went to the home of Miss Grace Campbell, 206 West 133d Street, and was informed by her that she had received a letter from Claude McKay, who is in Russia, stating that Russia had her eyes on the colored people of this country, and the colored people should get together and show some spirit and form a Communist group, and stand out from the white people, so they could be recognized. He stated they would not get anything by coming up from the south and falling into the hands of the politicians, but should get together and make one mass, in order to get power. He further stated the Communist Party of Russia has a great deal of faith in the colored people of America, and they should get a man of Garvey's type for their leader.

McKay further stated he expected to be in France in a few weeks, but never expected to return to America, but would keep in touch with his friends here and keep them posted, and would assist any good movement that might arise.

I was unable to secure McKay's address from Miss Campbell.

Agent saw Mr. J.A. Domingo on 135th Street and went with him to the home of Cyril Briggs, 213 West 135th Str. and while there Domingo said he was in Philadelphia with Otto L. Eniswood and while there made a speech in one of the churches there. He said it was a little old church and that it was crowded. He said Eniswood made a fine speech and succeeded in convincing his audience, and if given the chance would make one of the best organizers there is. He said housing conditions in that city are in bad shape and Eniswood got a committee of that church together for the purpose of calling all the local ministers together to see if they couldn't get better living conditions.

Briggs said he met Coles and had a talk with him and found him a pretty nice chap and there was no truth in what he had been told about him.

Domingo said he saw in the Chicago Defender that Duboise was to go to West Africa.

Domingo further said that Garvey was gaining ground.

NEW YORK, N.Y. 11/16/23 AFRICAN BLOOD BROTHERHOOD EARL E. TITUS

in his new movement and after he gets a few of those grafters out of his order, he will have one of the foremost organizations in the country.

He said Garvey learned a great deal while in jail and had time to think over his mistakes. He said that the U.A.A.C.P.

is a good organization and are getting good results out Garvey has the ability of organizing. He said that Garvey in his trip out west made a good many friends who are now willing to help him.

Briggs said he had received a letter from Claude McKay to the effect that he was in Germany and that he was to stay there until something happened.

FACTS DEVELOPED:

AT CHICAGO ILLINOIS:

Agent covered a meeting held at the home of EDWARD L. DOTY, No. 3638 Ellis Park, Apr. 3, Chicago, Illinois. This meeting was called at 8:45 P.M., and closed at 11:00 P.M. There were 13 persons present.

In the absence of GORDON OWENS - MR. DOTY acted as chairman. After the regular routine of business, Mr. Doty gave a talk and in his remarks stated: "That there are only two things the negro wants and that is opportunity, and justice, which are fast coming to him, if he will only meet the opportunity when it presents itself. That this Capitalist United States has made a great many mistakes, and one of them is - toward the negro, but the negro is waking up, and has begun to think. The other mistake is - toward the working man. That they are now trying to rectify themselves; that here of late they have started what is called the KKK KLAN; that the negro was driven out of the South, as you know, and they were received in the North by the Jews, and the Catholics, and the Capitalists have absolutely failed, and are now trying to get the negro back in the South again, but the negro has begun to think and to awaken. That a SANGHEM Conference is to be held in this city beginning the 12th of February next. The African Blood Brotherhood, and the Workers Party will be

well represented there. We are working quietly, and slowly, and we will spread our propaganda in this meeting, and we will give them time to think, as we know that KELLY MILLER is a Communist in his heart, but is working slowly, and it is this great scheme that will get the colored people to think, and join our party, and in that way we will be able to get some recognition, as we, as Communists, are all of one race - the human race, and we will be able to join any trade union in this, or any other country, who are Communists." He further said "Look at Claude McKay in Soviet Russia today, he is one of our group, and he is received with open arms, and there is no discrimination."

MR. DOTY further said "that in this meeting of the SANHELDORIN, to be held in Chicago, it will give them one of the best opportunities to start their propaganda that they have ever had, and he was sure that it would have its effect."

MEMORANDUMIN RE: CLAUDE MCKAY

Under date of September 22, 1919 Subject was reported to be the writer of several extremely radical articles for the "Negro World", advocating the extension of "bolshevism" in the United States as a means of obtaining "freedom" for the negro.

In February 1921 he was reported as being a member of the editorial board of the "Liberator". He remained an associate editor of the "Liberator" for several years. The "Liberator" was always a periodical voicing radical views and is now an official organ of the Workers' Party being controlled and operated by that organization, the Workers' Party of America.

In March 1921, subject was reported as having formerly been associated with Sylvia Pankhurst in her work with the "Dreadnaught".

Subject is apparently a poet, or at least he has written considerable verse. He is a native of Jamaica, British West Indies. The date of his entry into this country is not definitely known, but it is

61-3497

- 2 -

thought he came here during the year 1917. He lived in New York about two years when he went to London, returning apparently late in 1920, or early in 1921. In July 1921 he is reported as being connected with the African Blood Brotherhood, generally accepted arm of the Communists in the work among negroes.

Subject has been extremely intimate with Cyril Briggs and W. Huiswoud, organizers and leading spirits in the African Blood Brotherhood.

McKay's views, beliefs, principles, et cetera may properly be inferred from quotations from his writings, and the following are shown:

In the "Liberator" issue of June 1921 appears an article by subject entitled "How Black Sees Green and Red", excerpts from which are as follow:

"But it is with the proletarian revolutionists of the world that my whole spirit revolts.....
The yearning of the American Negro especially, can only find expression and realization in the class struggle....when a Negro is proscribed on account of his color, when the lynching fever

- 3 -

seizes the South and begins to break out even in the North, the black race feels and thinks as a unit. But it has no sense of its unity as a class - or as a part, rather, of the American working-class, and so it is powerless. The Negro must acquire class-consciousness."

In the "Crisis" a negro publication with radical tendencies, issue of July 1921, appears a letter from McKay, excerpts from which are as follows:

"I am surprised and sorry that in your editorial, 'The Drive', published in THE CRISIS for May, you should leap out of your sphere to sneer at the Russian Revolution, the greatest event in the history of humanity; much greater than the French Revolution, which is held up as a wonderful achievement to Negro children and students in white and black schools. For American Negroes the indisputable and outstanding fact of the Russian Revolution is that a mere handful of Jews, much less in ratio to the number of Negroes in the American population, have attained, through the Revolution, all the political and social rights that were denied to them under the regime of the Czar."

From "The Liberator", issue of July 1921, the following is taken, having been written by Subject.

"ENSLAVED

Oh when I think of my long-suffering race
For weary centuries despised, oppressed,
Enslaved and lynched, denied a human place
In the great life line of the Christian West;
And in the Black Land disinherited,
Robbed in the ancient country of its birth,--
